Joseph P. Esposito, Assistant District Attorney-Special Operations  
Scott Goodwin, Bureau Director of Fraud and Corruption

**FROM:** [REDACTED]

**RE:** Request for Office Issued Restraining Order

**DATE:** January 25, 2018

I have recently been advised that there is evidence in the possession of the Los Angeles County District Attorney's Office Internal Affairs Department regarding the investigation of sexual misconduct and sexual harassment of Deputy District Attorney [REDACTED] by Assistant Head Deputy Edward Miller of the Healthcare Fraud unit which I reported on September 14, 2017 that calls into question Mr. Miller's mental stability and places myself and [REDACTED] physical safety and well-being in jeopardy.

The evidence was turned over during the Internal Affairs Department interviews of one of the witnesses I listed on my September 14, 2017 Memorandum to Sgt. Jay Chapman which I have attached to this memorandum.

I have seen this disturbing evidence and I am *very* concerned about my physical safety, [REDACTED] physical safety, and the safety of all the witnesses that I listed in a previous memorandum, and those that were interviewed in connection with this investigation.

The evidence which I saw was writing of poetry and words by Assistant Head Deputy Edward Miller on the white attendance board in the Healthcare Fraud unit right above the name of Head Deputy Jennifer Snyder detailing his longing and admiration for an unrequited love interest.

This writing of poetry and words were written by Mr. Miller on multiple occasions on the white attendance board and everyone in the Healthcare Fraud unit including management at the time of the writing knew that it was about Mr. Miller's longing and admiration for the unrequited love of [REDACTED]

The fact that the evidence I saw was written above the name of Head Deputy Jennifer Snyder's name calls into question her knowledge and awareness of the conduct and the conduct of her

Assistant Head Deputy as she is the Head Deputy of the Healthcare Fraud unit, and is under a clear mandate to report such conduct pursuant to the Personnel Policies Manual Section II-9, which states, any supervisor or manager who receives a harassment complaint or becomes aware of a situation that may involve harassment should notify the Employee Relations Division immediately.

Further, if Ms. Snyder did make the report and abide by her mandate then it calls into question the Employee Relations Division and senior management in this Office as the writing of poetry by Mr. Miller occurred prior to my transfer into the Healthcare Fraud unit on [REDACTED] and just after the Healthcare Fraud unit moved into the Hall of Justice on the 10<sup>th</sup> floor.

I have also heard alarming and startling statements made by Assistant Head Deputy Edward Miller to [REDACTED] that were conveyed to the Internal Affairs Department by one of the witnesses that I listed in my memorandum about being lured to an off-site location. Those statements are shocking and unsettling to me and suggest predatory type behavior that makes me feel even more unsafe for myself, my family, my property, and for [REDACTED] safety (and others).

The fact that this Office has this evidence and has chosen not to proactively protect my safety and the safety of [REDACTED] is absolutely perplexing and troubling—especially after the Long Beach attorney shooting incident that occurred recently.

Just to reiterate, I do not feel safe in this Office and in my workplace. Also, I do not feel that this Office is expending any effort to ensure my safety and the safety of others related to this investigation. Rather, and quite sadly, I do see that this Office is expending energy in protecting its own interest by limiting its legal liability in this matter.

Therefore, in light of all this, I am requesting that this Office file a restraining order on my behalf, on [REDACTED] behalf, and on any other persons who were connected to this investigation or have felt threatened by Mr. Miller. Employees simply do not feel safe and it is this Office's responsibility to protect their employees from predators like Mr. Miller.
